Working Group Purpose:

Creating an industry forum to gain a better understanding of the different formats that currently exist within the industry, how they differ from one another, what they define, who can use them, etc.

Agenda:

- Welcome
- Overview of the GSA & IET International Semiconductor Forum in Munich presented by Thomas Moerth
- OpenPDK Update presented by Nick English
- Wrap-Up

Minutes:

GSA & IET International Semiconductor Forum in Munich Overview

- Overall, Thomas and Paul said the event was well attended by top-level executives and that there was good interaction between attendees on the exhibit floor, making it one of the best events they have been to in Europe.
- See PDF on working group website

OpenPDK Update

- See PDF on working group website

Wrap-Up

- If anyone is interested in getting together before the next meeting in September, there will be quite a few Working Group members at DAC in San Diego, CA on June 5-9, 2011.

Next Meeting for PDK Working Group:

Date: September 12th or 13th, 2011 (TBD)

Time: 10:00 A.M. (Pacific)

Place: Teleconference
