

## **MIXED-SIGNAL/RF SUBCOMMITTEE MINUTES PDK CHECKLIST WORKING GROUP**

**Date:** April 22, 2008

**Location:** Teleconference Only

**Time:** 10:00AM PDT

### **Attendees:**

- Ted Paone – Cadence Design Systems
- Thomas Moerth – Austriamicrosystems
- Chelsea Boone – GSA
- David Schwann – RF Micro Devices
- Sabine Perko – X-Fab
- Barbara DeWitt – IBM
- Yang Du – Qualcomm

### **Summary:**

- Discussed our proposal for the next version of the PDK Checklist.
- Current PDK and Model Checklist Components are Available at:  
<http://www.gsaglobal.org/subcommittees/msrf/index.asp>.

### **Discussion Items:**

- The proposal for v2.1 of the PDK Checklist was discussed and everybody agreed to the current proposal – adding “Database,” “Pcell Type,” “If Database is OpenAccess” and “Reference PDK Version.”
- Should we input the PDK Details in the 1<sup>st</sup> table? - No
- We need a good description about the new table in the Users Guide. Thomas will bring a proposal for the next meeting.
- There might be one additional piece of information that needs to be added to the PDK Details section – the equivalent of Cadence CDF. We need to find out if this is useful information and if a different mechanism than the tool built in could be used. Chelsea will contact those on the MS/RF Subcommittee from Magma, Silicon Canvas and Synopsys for their opinion. Thomas will contact Jingwen from Synopsys.
- A white paper on IP migration to OpenAccess can be made available to GSA after CDN Live! in Europe and the U.S. (Oct/Nov 08 timeframe)

### **Next Meeting for PDK Checklist Working Group:**

The next meeting is scheduled for June 24, 2008 at 10:00AM PDT.
