About GSA

Mission

The **Global Semiconductor Alliance** (GSA) is where leaders meet to establish a profitable, sustainable semiconductor and global tech ecosystem. We provide a unique neutral platform for collaboration where **global executives** interface with peers, partners, and customers to exchange ideas and resources, to anticipate industry challenges, share best practices, and gain visibility across the global tech industry.

Leadership

GSA is led by a **Board of Directors** and an array of subsidiary **Leadership Councils**. Each is comprised of semiconductor industry executives from acclaimed companies including **AMD, Arm, Cadence, Infineon, Intel, Marvell, Qualcomm, Samsung, Synopsys, TSMC** and many other global leaders who collaborate to support a technology ecosystem continually on the cusp of innovation.

Beyond Semiconductors

As business models evolve, GSA has been expanding to a more comprehensive ecosystem encompassing system, software, service and solution members such as **Amazon, Dell, Google, Microsoft, Oracle, Salesforce** and **Tesla**.

Global Executive Network

GSA runs the largest and most active global semiconductor and tech executive network, stemming from **300 corporate members in all geographies**. Members range from emerging companies to established industry veterans, include tech heavyweights as well as companies representing over 70% of the \$450B+ semiconductor industry.

Events, Intelligence and Visibility

Leveraging all the above, GSA provides to its members a platform for collaboration and strategic thought leadership through curated **regional and global events**, a committed **women's leadership initiative**, a set of **interest and working groups** dedicated to key industry topics, a repository of **industry intelligence and tools**, and a variety of **marketing communications and visibility opportunities**.

Exclusive Membership Benefits

Tailored Global Events

The GSA curates a number of **regional and global events**, taking place in the **US, Europe and Asia Pacific**. These include executive forums, technology summits, workshops, networking dinners, and C-level affinity groups enabling our members to address challenges and industry wide solutions within the supply chain.

Dedicated Interest Groups: AI, Auto, IP, IoT

The GSA created four dedicated interest groups focusing on the pivotal areas of **Artificial Intelligence, Automotive, Intellectual Property and Trusted IoT Ecosystem Security**. These four initiatives aim to further stimulate dialog, collaboration and innovation across technology segments and market verticals, shed light on common challenges and help realize growth opportunities.

Women's Leadership Initiative

GSA members have the opportunity to join this vital **GSA-lead initiative** to increase the number of women acquiring leadership roles, and the resources afforded to them, in an industry that depends on a **highly talented, diverse, and educated workforce**.

Repository of Industry Intelligence and Tools

The GSA offers the **most comprehensive portfolio of data and information on the semiconductor industry** including market, financial and product data. We offer a portfolio of company information, financial data, product and technology data and surveys, monthly and quarterly industry information and end market reports.

Marketing Communications and Visibility Opportunities

As a GSA member, you will have access to opportunities to speak at events, present to the GSA BOD, partner on industry studies, sponsor GSA events, write articles, be Spotlited on our website, share news about your company and participate in invitation only leadership gatherings.

Examples of Annual Events

Annual Awards Ceremony (Santa Clara, California)
Asia Pacific Executive Forum (Taipei, Taiwan)
Automotive Summit (Munich, Germany)
Entrepreneurship Conference (Various locations)
European Executive Forum (Munich, Germany)
Global Leadership Summit (Shanghai, China)
Memory+ Conference (Shanghai, China)
Silicon Leadership Summit (Silicon Valley, California)
US Executive Forum (Silicon Valley, California)
WISH - Women in Semiconductor Hardware (Silicon Valley, California)

In addition, we host separate Interest Group workshops, Leadership Council meetings and run smaller local gatherings, including networking dinners and C-level affinity groups. Check out the GSA website for a [calendar of upcoming events](#).

GSA Membership

General Membership

The cost of our most popular membership option is based on the member company's annual revenue and ranges from \$5,500 to \$25,000 per year.

Annual Revenue	\$0-25M	\$25M-50M	\$50M-100M	\$100M-500M	\$500M+
Annual Dues	\$5.5K	\$10K	\$15K	\$20K	\$25K

Partnership Membership

The GSA Partner Membership is reserved for companies who provide knowledge-based services to our general members. The cost of this option is \$5,500 per year and is often selected by companies such as venture capital firms, investment banks, consulting and research organizations, law firms, executive search groups, and insurance companies.

Association and Organizational Membership

GSA reserves this membership option, priced at \$3,500 per year, for non-profit, educational, or government entities and similar associations.
